

# Glow-in-the-Dark Heat Transfer Material

## Product Specifications & Technical Data

### Product Description

Create unique apparel that glows when the lights go off with Glow-In-the-Dark Heat Transfer Vinyl. The material has a smooth low-profile surface. Heat transfer is a film material which has a heat-activated adhesive backing, so it can bond permanently onto fabric. This means it can be applied onto various fabric surfaces, such as t-shirts, jerseys, or bags. Great for creating customized apparel, heat transfer vinyl is a professional-looking material that creates high-quality projects. Heat transfer can be loaded directly into a Silhouette cutting machine and does not require the use of a cutting mat. Heat transfer vinyl includes its own transfer liner, so no transfer tape is required.

### Recommended Use

Optimal for use with Silhouette and other brand cutting machines. This material is targeted for application onto fabric surfaces.

### Compatible Fabrics

Cotton, Cotton/Polyester Blends

### Product Specifications

Polyurethane, permanent bond

### Adhesive Specifications

Heat-activated adhesive (Polyurethane-hotmelt)

### Liner Specifications

PET film (non-adhesive)

### Technical Data

---

**Product Thickness:**

100 micron / 0.10 mm

---

**Product Dimensions:**

9 in x 24 in (22.9 cm x 61 cm), continuous roll format

---

**Product Surface:**

Smooth surface texture

---

**Printable:**

No

---

**Shelf Life:**

3 years (in original packaging at 20°C/68°F and 50% relative humidity)

---

## Application & Care

---

### Application Instructions:

Weed excess material from around cut-out designs. Apply onto fabric surface using an iron or heat press according to recommended transfer conditions.

---

### Heating Temperature:

**Iron-On:** < 300° F / < 149° C, Medium heat or "Cotton" setting

**Heat Press:** 345° F / 175° C

---

### Heating Time:

**Iron-On:** 45 - 60 sec

**Heat Press:** 20 - 25 sec

---

### Transfer Pressure:

**Iron-On:** Firm

**Heat Press:** -Firm

---

### Peeling Condition:

Hot

---

### Washing & Care Instructions:

Turn material inside-out prior to wash, machine wash warm with mild detergent, hang to air dry or machine dry on low heat setting. Wait 24 hours before first wash. Do not dry clean.

## Color Options

---

White-green tint - *Under normal lighting conditions*

Bright green glow - *In the dark after being exposed to light*
